THE STRIKE AT BOLAND'S.

GOVERNMENT TO TAKE OVER BAKERY.

...he position with regard to the employés at ...ng's and mills of Messrs. Bolands, Ltd., ...y are on strike, and the firm was somewhat follows last night: The men were in favour ...overnment arbitration, but the firm would ...arbitrate unless conditions which were impossible of fulfilment in the time available to ...de the present dispute. A telegram was ...ived from Sir George Askwith by Mr. ...Kerrell, representing the Ministry of Labour, ...ming him to intimate to the men that ...e difference between them and Messrs. ...lands, Ltd., would be referred to arbitration, ...t that steps were being taken to that end. ...also authorised Mr. McKerrell to advise the ...n that work should be resumed and the ...erences arbitrated upon, and that, if the ...y refused, the Government would take over ...bakery. On the strength of that telegram ...men agreed, at their meeting on Wednes...night, to present themselves for work at ...bakery yesterday morning. Their repre...tatives who attended were informed by the ...nager that he had no instructions to re...t them. Mr. McKerrell was informed that ...meeting of the board of directors of the ...y would be held during the course of the ...ing, and that a decision would be arrived at ...arding the duty of the firm with respect to a telegram to Mr. McKerrell. Later in the ...ing Mr. McKerrell received a reply from the ...ectors, which, in effect, meant that the firm ...d refused arbitration except upon its own ...ditions, and the firm, therefore, assumed ...t the Government would take possession of ...bakery from 12 o'clock to-day. It was ...derstood that the firm would take no responsibility for ...ther carrying on the work. Mr. McKerrell ...erwards had a meeting with the Food Control Committee, presided over by Mr. Burke. ...stated the position, and Mr. Burke after...ds had an interview with the manager and ...retary of Messrs. He also referred to the ...ts made by the enemy to destroy the ...ipping, in a regrettable state of ignorance, ...d stars. Here is in opposition to the facts, ...ing as it did, the enemy so far as the attempt ...destruction of astronomers is concerned. Coming ...within reach of moderate telescopes only seven ...ars of the Club, together with the Hon. ...cretary of the Automobile Association, who ...s also a member of the Club, could be counted ...n in future consider, when necessary, any question ...fecting the rights of Irish motor users, and it ...s hoped that the cordial co-operation of the bodies ...nstituting this Committee would safeguard the ...terests of motorists in this country, which are in ...me respects, not quite the same as those of ...torists in Great Britain.

The Committee went on to say that the work ...f the club during the past year had been ...almost entirely devoted to maintaining the ...various war undertakings with which the club ...e associated in aid of sick, wounded, and ...travelling soldiers, and the Committee had been repeatedly assured that the work done had the sympathy and appreciation of the military authorities. While a portion of the work of the club had been done for the military authorities, it had also been in aid of alleviating the inevitable hardships of civilians caused by the war. In the former case, nothing but courtesy and assistance had been received, while in the latter the evident desire of the authorities to assist in every case, sometimes to the detriment of their own convenience, was very pretty contrasting just outside the ring, and sometimes forming an equilateral triangle with the Plough and the Pole Star. IRISH AUTOMOBILE CLUB.

ANNUAL MEETING.

The annual meeting of the Irish Automobile Club took place yesterday at its house in Dawson street, Dublin. The Chairman, Mr. ... White, presided.

The Committee, in their report for 1917, had pleasure in stating that the membership of the club had been well maintained during the year. The number of members who had resigned owing to the difficulty in obtaining petrol, the Defence of the Realm Regulations, and the large number of members who had joined the colours, was 49. The number of members and associates 49. The ordinary work of the club and the interests of its members had been fully attended to, and the clubroom and garage had been utilised more than for hitherto been the case.

In regard to the tax on motor cars (it was not the Committee feel that, having regard to the small amount of petrol now granted under the private users, and to the fact that such petrol could be used for work of a necessary character, the full duty should not be payable on cars when their use to so much restricted, more particularly as there is no prospect of the early expiration of their present petrol licences owing to the certain reduction of the petrol ration in respect of cars now being used. The Committee are taking steps to bring these views before the proper authorities, with a view of having an arrangement made by which the hardship complained of may be removed or safeguarded. In the month of November a committee was formed of representatives of the motor users, producers, and distributers, and one of the Irish Automobile Club was elected a representative on the Council. At the request of your Committee thought it expedient to form a committee, representative of the motor trade in this country, for the purpose of putting forward the views of the trade in connection with the Budget. They invited the Irish Motor Trade Association to appoint two representatives, and the club appointed two representatives of the Club, together with the Hon. Secretary of the Automobile Association, who also is a member of the Club. This committee will deal with in future consider, when necessary, any question affecting the rights of Irish motor users, and it is hoped that the cordial co-operation of the bodies constituting this Committee will safeguard the interests of motorists in this country, which are in some respects, not quite the same as those of motorists in Great Britain.

The Committee went on to say that the work of the club during the past year had been almost entirely devoted to maintaining the various war undertakings with which the club was associated in aid of sick, wounded, and travelling soldiers, and the Committee had been repeatedly assured that the work done had the sympathy and appreciation of the military authorities. DEMAND FOR ALLOTMENTS IN DUBLIN.

...Yesterday, in the City Hall, Mr. F. J. M'Carthy, ...ral Government Board Inspector, held a further ...uiry into the application of the City Council of ...ublin for power to acquire certain lands to be ...ed as allotments to men willing to cultivate them for ...purpose of producing food.

Mr. Muldoon, K.C., instructed by Mr. J. ...Dowell, appeared in support of the application ...behalf of 800 applicants residing at the north ...of the city; Mr. M. Digges, K.C., represented ...Northumberland Dairy Company, and Mr. Lardner instructed ...Messrs. D. and T. Fitzgerald) appeared for ...Pembroke Council.

Mr. Rice, who represented the Corporation, stated ...at the lands immediately in the vicinity of the ...ople who held five or six weeks ago were ...ally inadequate to the necessities of the situ...ation. At the present moment the Council had ...ated plots, but the land that was taken provided ...for 600, on the basis of an eighth of an ...for each. Since then the Corporation had re...ved 790 applications, and that number, with the ...ther previously unprovided for, made a total of ...90, for whom at present there was not a square ...of land available.

It was stated that the taking of Merrion square ...contemplated, and that it was abandoned. Walk...ed in four acres at Rath avenue, the Rev. ...ter M'Veagh, President of the Catholic Univer...School, stated that the taking of the Sth would ...tically mean the destruction of the school.

Mr. Lardner said Pembroke Urban Council ...received 538 applications for allotments, and ...had provided for 413. The Council thought that ...withholding of the Catholic University School ...was not reasonable. The City Corporation ...had on right to apply for land in the Pem...ke area.

Mr. Healy, K.C. (instructed by Messrs. WESTERN FRONT.

ENEMY TRENCHES RAIDED.

The British front in France was very active yesterday. Successful raids were carried out by English and Scottish troops, which yielded in one instance twelve prisoners and a machine gun, and in another a similar number of prisoners and three machine guns. Artillery fire was again strong on both sides.

The French also raided enemy trenches and secured prisoners.

The German report speaks of English reconnaissances on many points of the front after violent artillery preparations.

BRITISH OFFICIAL.

Thursday, 9.59 a.m.—English troops carried out a successful raid last night against the enemy's trenches on Greenland Hill, north of the Scarpe River. Twelve prisoners and a machine gun were captured by us. English and Scottish troops also raided the German positions in the southern portion of Houthulst Forest, and brought back twelve prisoners and three machine guns. The enemy's artillery has been active in the neighbourhood of Harrincourt Wood and south of the Scarpe River. Artillery on both sides was active during the early part of the night east of Ypres.

FRENCH OFFICIAL.

Thursday Afternoon.—Our patrols operating in the region of Beaumont and in Lorraine, ...ught in some prisoners. There was rather a lively cannonade to the north of Hill 344, on the right bank of the Meuse.

GERMAN OFFICIAL.

The English, keeping up their reconnaissances ...on many points of the front during the night, ...after violent artillery preparations, they ...attacked with strong forces at Houthulst Wood ...and north of the Scarpe. They were repulsed ...in hand-to-hand fighting and by counter-attack.

ALSACE-LORRAINE.

DEPUTIES' PROTEST OF 1871.

The French Government have decided that ...to-day the terms of the protest made in the Bordeaux Parliament on the 17th February, 1871, by the Alsace-Lorraine Deputies shall be read in all schools and churches in France. The following is an English translation of the protest:—

"Abandoned in spite of all justice and by an odious abuse of force to the domination of the foreigner, we have a last duty to fulfil. We declare null and void a pact which disposes of us without our consent. The re-vindication of our rights will remain always open to each and every one of us, in the form and the measure which our conscience shall dictate to us. At the moment of leaving this Assembly, where our dignity no longer permits us to remain, and in spite of the cruel sorrow which overwhelms us, the supreme thought which fills our hearts is one of gratitude to those who for six months have not ceased to defend us, and to show us their undying attachment to the country from which we are torn by violence. Our vows and our prayers will follow them there. We have full and supreme confidence in the future, when France, regenerated, will once again follow the glorious road of her destiny. Your banishment, Alsace and Lorraine, torn in this moment from the common family, will exact by thirty years of chain a filial affection that the day when she will again retake her place."

THE ITALIAN FRONT.

Italian Official. — Intermittent artillery actions were limited to the region of the Brenta and south of Ponte Di Piave. South-east of the ridge of Monte Solarolo enemy positions on the right bank of the river were attacked by parties, and returned to their lines with prisoners. Artillery fire on the Piave, north of Col Del Rosso, was very violent, and reached the dwellings of Zenson, where it caused a group of enemies who had been concentrating there to disperse. We brought back to our lines two 11-inch trench mortars, about twenty rifles, and war material.

During the day and night there was considerable aerial activity. Our aviators successfully hit with six tons of bombs several military places. Hostile aircraft were driven down, one of which, one north of Nirvesa, and the other north of Oderzo. Near Piave Di Soligo a captive balloon was hit by our artillery. Despite unfavourable weather, two enemy bombing ...ons were brought down.

...Adrian Official.—Activity has been increased ...ilitary activity on isolated sectors of the ...ers front. As a reprisal for the Austrian ...ation of Venice, on the night of February 28th-29th, ...ur seaplanes dropped a number of bombs on the ...ilway station and the arsenal at Pola. Other ...ombs fell on the commercial port of Venice. ...is clearly observed that many hits were ...ed which resulted in fires.

AN AUSTRIAN OFFENSIVE?

...ne telegram.—The Austrian war ...of Wednesday says:—Whilst all reports ...France seem to indicate the imminence of ...German offensive, the situation on the ...ian front is quiet. The information gleaned here from Austrian ...soners and from other sources lends colour to the belief that there is no question of an offensive ...st some artillery to help Germany, ...are themselves preparing a serious offensive ...gainst Italy. The question to be ...is to determine whether a serious attack on ...the Italian front is meditated, or whether a ...chinations are afoot to force Italy to ...ce peace conditions which the Central Powers ...being made with strategic, as well as political, ...bjects in view. According to absolutely reliable ...reports, a state of famine now prevails in the Trentin, where conditions are described as truly ...terrible.

THE TORPEDOED HOSPITAL SHIP.

ANOTHER GERMAN INFAMY.

Reuter's Agency learns from a well-informed source that the hospital ship Glenart Castle was torpedoed within the area declared by the German themselves to be immune. This act constitutes a further breach of the German pledge not to sink hospital ships outside certain clearly defined areas. A portion of the ship Lena was torpedoed in January on attempt was made by the German Government to show that the vessel was not clearly marked, but she struck a mine. This was clearly disproved at the time. The sinking of the Glenart Castle is additional proof, if such were needed, to the amount of attention paid by the German submarine commanders to the pledges given by their Government.

ADMIRALTY STATEMENT.

The Admiralty announces:—Sworn statements made independently by two survivors of the Glenart Castle make it quite clear that she was sunk by an enemy submarine, which was sighted within hailing distance within ten minutes of her being struck. It is to be noted that she was in the "free area," and her sunk even in breach of the German pledge given as to the immunity of hospital ships from attack in that area. The total number saved so far reported is 29, and the total number missing is 155. The following are as follows:—

Total crew, 125; R.A.M.C. officers, 7; female nurses, 8; other R.A.M.C. ranks, 47. Total on board, 187.

Saved—Crew, 25; R.A.M.C. ranks, 4. Total saved, 29.

Total missing, feared drowned, 158.

A HIGH BAROMETER.

TO THE EDITOR OF THE IRISH TIMES.

Sir,—I have no barograph, but I have recorded readings of the barometer in that room at 9.30 a.m. since May, 1910. On the 26th February the reading was 30.52. All the recorded readings above 30.5 which I have on record are:—

TO THE EDITOR OF THE IRISH TIMES.

Sir,—In replying to Mr. F. Williamson's letter, I write to say that my barometer, which had fallen from 30.53 inches at 9 p.m. on the 25th to 30.26 inches at 9 a.m. on the 26th, began then to rise rapidly till it reached 30.52 inches at 10.30 p.m. on the 26th. Then it fell slowly till 9 a.m. on the 27th, when it was 30.50. Then it rose slowly till 9 p.m. on the 28th, when it was 30.57. I checked this reading by the one by Messrs. Dixon and Hemphill's standard barometer, which I visited for the purpose of my perfect accuracy, and found it correct.—Yours, etc.,

WHERE JAPAN MAY STRIKE.

VALUABLE STORES AT VLADIVOSTOCK.

THE URAL MINERAL AREAS.

LENIN'S LATEST APPEAL.

The *Petit Parisien* (says a Reuter's Paris telegram) commenting on the position of Japan in view of the German advance in Russia, says that Japan is reserving for herself the right to adopt energetic measures if peace is concluded at Brest-Litovsk. She does not intend to be taken by surprise.

The journal considers that Japan should act in the direction of Siberia and the Urals to set up a barrier to German enterprises aimed at seizing the copper and platinum mines of the mountain chain forming the boundary between Europe and Asia.

It is not known, the paper continues, in what manner Japan's action will be carried out. The Tokio Government before acting will consult the Allies.

The *Echo de Paris* remarks that Japan will show that the Japanese have retained the dash and self-sacrificing spirit of the race, and will protect the Russians from the invaders.

SUGGESTED CO-OPERATION WITH AMERICA.

An Associated Press telegram from Washington says:—Japan has directed inquiries to America and the *Entente* Powers with a view to ascertaining their feelings towards the proposal to institute joint military operations in Siberia to save the vast quantities of supplies and stores at Vladivostock and along the Siberian railroad.

The Allies at Washington refuse to discuss the subject for publication, but it is understood that so far as America is concerned the proposal when first broached was not wholly acceptable. The exchanges of communications are still in progress, and may result in a modification of the Government's attitude.

The Japanese regarded the situation in Siberia as warranting the adoption of some measures to preserve the stores, even if it involves military action on Japan's part. The Japanese are quite willing to have the co-operation of the United States and America does not object. The military advance against Russia has caused vexation in Austria-Hungary. The majority of the population there is already sorely hostile towards us. We have recently heard a speech in which it was said that the world must find a way to prevent victorious Russia. For a long time have we read anything, the tone of which was so disheartening and the contempt so unjustifiable. The danger from the German side is increasing. Germany, by her following Revolutionary Socialists, is driving Russia to allow her rich minerals to leave the country free of export duty, and permits it to be transported over the railways formed detachments, which meant opening the doors to the contingency of fresh German detachments. Germany has thus made possible the intervention at any moment in the international affairs both of Ukraine and Russia. These circumstances constitute a pressing danger, and the masses demand the rejection of the German conditions, even if they have to accept the most humiliating conditions, was now rising against the soldiers in defence of the Revolution.

POSITION IN NORTHERN RUSSIA.

A Petrograd telegram (Press Association War Special) says that the Bolshevik Government sends the following telegram regarding the position in Northern Russia:—

At a plenary meeting of echelons of sailors in Helsingfors it was resolved to send to the front all sailors at their posts until the last minute. Crestadt is calm. The sailors are enthusiastic for the defence of the Revolution. The enrolment of echelons of Red Guards directed towards Bologoe and other points and mobilisation continue with animation. The soldiers are forgetting their past misconduct, and are ready for the struggle. Regal (80 versts from Petrograd) is occupied by the Red Guards. Artillery activity leads to the belief that the Germans are advancing. That the Germans are in Narva is confirmed, with the German is noticed by the order of events.

FINNISH SENATE AND THE KAISER.

The following official statement, dated Vasa, Thursday, is issued:—The Finnish Senate has decided to send a telegram to the German chancellor, thanking Germany for what she has done for Finland by the repatriation of the Finnish Nationalists and the despatch of three brigades to the German Armies. The address also expresses the hope that the German Emperor, as protector of the Finnish throne, will support the impartial faith, will demand at the Peace Conference at Brest-Litovsk, that all the Finnish troops shall be withdrawn from the country, and that the revolutionary areas shall be handed over to the legitimate Government.

MESOPOTAMIA.

The Secretary of the War Office issues the following:—

Since our occupation of Khan Abu Royat on 20th February our patrols have been in contact with the Turks near Hit, and some prisoners have been taken. Hit itself has been much attacked from and bombs dropped on it. Two ...attacked camps and billets near Hit, and also on the Upper Euphrates.

DUBLIN COUNTY COUNCIL.

THE EXPENDITURE OF PUBLIC BODIES.

At a special meeting of the County Dublin County Council yesterday Mr. James Mahony, Rathmines, moved a motion that was given by Mr. J. Newcombe that he would move, at the next meeting of the Council, that the expenditure of the Chamber of Commerce and the city ratepayers' petition to the Lord Lieutenant, the appointment of a commission of inquiry into the administration and the enormously increased expenditure of the Dublin Corporation, and the Dublin Unions and the Richmond Asylum Board.

Mr. James Mahony gave notice that he would move, at the next meeting, that the secretary be instructed to ask for the opinion of Local Government Board on the following point:—If the Chairman of the County Council was correct—view of the Chairman of the County Council was correct—namely, that he might lawfully forbid the officials of the Council to carry out the orders executive committee. The danger from the German side is increasing. Germany, by her following Revolutionary Socialists, is driving Russia to allow her rich minerals to leave the country free of export duty, and permits it to be transported over the railways formed detachments, which meant opening the doors to the contingency of fresh German detachments. Germany has thus made possible the intervention at any moment in the international affairs both of Ukraine and Russia. These circumstances constitute a pressing danger, and the masses demand the rejection of the German conditions, even if they have to accept the most humiliating conditions, was now rising against the soldiers in defence of the Revolution.

LENIN'S FEEBLE APPEAL TO ARMS.

A Petrograd telegram, dated Wednesday, states that the fresh appeal to arms issued by Lenin and Trotsky, the Bolshevik Chief Commissary of the People's Commissaries also stated that a large quantity of munitions had fallen into the hands of the Germans. The Commissaries concluded with breaking hearts, had found it necessary to leave for the moment defenceless the workers' and Soldiers' Council, and Russia, however, firmly convinced that, seasoned by thirty years of class struggle, they would be able to offer a necessary resistance to the advancing German pending the time of the rising of the International proletariat. Only could the latter put an end to exploitation and oppression. The Government was convinced that the Proletariat would understand the salvation of Russia was being done in this solution was a supreme task, calling for every exertion. The danger from the German side is increasing. Germany, by her following Revolutionary Socialists, is driving Russia to allow her rich minerals to leave the country free of export duty, and permits it to be transported over the railways formed detachments, which meant opening the doors to the contingency of fresh German detachments. Germany has thus made possible the intervention at any moment in the international affairs both of Ukraine and Russia. These circumstances constitute a pressing danger, and the masses demand the rejection of the German conditions, even if they have to accept the most humiliating conditions, was now rising against the soldiers in defence of the Revolution.

RUMANIA'S FATE.

TERMS PRESENTED TO THE KING.

CZERNIN'S INTERVIEW.

A Reuter's Paris telegram of Wednesday says:—From a message that a correspondent, despatched from Bukharest to the German newspapers, states that the Ministry of the Interior has despatched the following Note to the Rumanian negotiators:—

M. Pierre Carp (a former Rumanian Premier) requests you to represent respectfully to the King that, in his opinion, even if the King were to sign a peace with the Central Powers, the continued presence in the Rumanian Throne would result in a series of upheavals, thereby rendering it impossible to maintain the dynasty, and consequently moreover serious difficulties in the way of healing wounds caused by his fatal and misguided policy."

The Rumanian Press Bureau denies most emphatically the German communiqué issued in Bukharest, to the effect that M. Take Jonescu, former Rumanian Premier, had advised the King to abdicate.

A Reuter's Amsterdam telegram of Thursday says:—A telegram from Bukharest received here, via Berlin, says that since the arrival of Czernin in the Rumanian Capital Powers at Bukharest preliminary discussions of a non-binding character have taken place with General Averescu, who is now forty miles from our original line in the course of a fortnight. Consequently the enemy is able to make a Ferdinand in the heart of Rumania, which is still occupied by Rumanian troops. In agreement with his Allies, General Czernin presented to the King the new conditions which the Central Powers were ready to conclude peace with Rumania.

The King has promised to submit the proposals for consideration, which was granted to him. It will depend on the King's reply whether a peaceful solution will be possible.

KAISER'S DEMAND FOR VICTORY FIRST.

DENOUNCED BY HERR SCHEIDEMANN.

According to a fuller report published in the German Press of Tuesday's Reichstag debate, Herr Scheidemann said:—The attempts to conclude peace in the West, like that with Russia, have failed for the present, because with all their military strength dangerous for Germany, too. The world would go to sleep, rifle on shoulder. The Bolshevik dreams would then be realised, and a world revolution would occur. The military advance against Russia has caused vexation in Austria-Hungary. The majority of the population there is already sorely hostile towards us. We have recently heard a speech in which it was said that the world must find a way to prevent victorious Russia. For a long time have we read anything, the tone of which was so disheartening and the contempt so unjustifiable. The danger from the German side is increasing. Germany, by her following Revolutionary Socialists, is driving Russia to allow her rich minerals to leave the country free of export duty, and permits it to be transported over the railways formed detachments, which meant opening the doors to the contingency of fresh German detachments. Germany has thus made possible the intervention at any moment in the international affairs both of Ukraine and Russia. These circumstances constitute a pressing danger, and the masses demand the rejection of the German conditions, even if they have to accept the most humiliating conditions, was now rising against the soldiers in defence of the Revolution.

FUNERAL OF SIR HENRY BLAKE.

The interment of Sir Henry Arthur Blake took place in his garden at Myrtlegrove, Youghal, on Wednesday afternoon. The Rev. Dr. Hodges made the arrangements in connection with the funeral, were as simple as possible. The Bishop of Cork, Dr. Crozier, the Rev. J. Hodges, M.A., Rector of Youghal, consecrated a small plot of ground, close by St. Mary's Collegiate Church, and at quarter to three the funeral left the late Sir Henry's Union Jack and the mantle of a Knight Grand Cross of St. Michael and St. George, was borne on a gun carriage, and the pall was held by bearers, the four great yew trees historically associated with the name of Sir Walter Raleigh. Here the coffin was lowered into the grave, and while the bishop read the Archdeacon of Ross and the Rev. R. J. Hodges.

Sir Henry was born by six non-commissioned officers and men of the Royal Irish Constabulary, immediately behind which walked Head Constable Hayes, Youghal, bearing the insignia which were Sir Henry's orders and decorations. Then followed the chief mourners—Lady Blake, Miss Blake, Mrs. Blake, Mrs. Limerick (sister-in-law), Duchess of St. Albans, with Mrs. Arbuthnot and Master T. J. Arbuthnot.

Mr. Archer Taylor, Local Government Board arbitrator, yesterday resumed the hearing of claims for compensation for property proposed to be taken by the Corporation for the widening of Henry street and Cook's lane under the reconstruction scheme.

Mr. Clancy, K.C., M.P., and Mr. White (instructed by Mr. I. Rice) appeared for the Corporation.

Mr. Andrew Stevenson claimed £3,176 9s. in respect of 43 Henry street. The Property Loans Company (Ltd.) made a claim for £2,000.

Mr. J. Lynch, K.C., and Mr. Vincent Rice (instructed by Mr. Joseph Kelly) appeared for the claimants; and Mr. T. Elliott, K.C. (instructed by Mr. M. Kingston), for the corporation.

Mr. James Lecky, valuer, and Mr. Francis Fitzpatrick, auctioneer, gave evidence for the claimants, and Mr. Dermot Jagoe, architect and surveyor, for the Corporation.

Mr. Arbuthnot, and Miss Patricia Arbuthnot.

Among those present were:—The Hon. Mrs. de la Poer, Mr. Arnold de la Poer, Mrs. Will, Mrs. Lynch, Kilcoe, and Mrs. Lynch, Ballyhea, Mrs. Wood, Dr. C. Ronayne, Dr. C. Orpen, Mr. R. B. Purdon, R.M.; Mr. J. Penrose Fitzgerald (representing Lord Fermoy), Major Compton, Commandant, Youghal; District Inspector Poer O'Shee, Mr. F. D. Carr, Mr. W. H. Cole, Mr. J. Wood, Mr. Herbert Weakham, R.M.; C. Weakham, C.B.; and a detachment of the Royal Irish Constabulary, under District Inspector Poer O'Shee.

Wreaths were sent by Mr. A. Blake, Lady Alex. Beauclerk, Lady Harriett Stafford Howard, Mrs. Dwyer Gray, Mrs. Dawson and Lady Harrel, Mrs. Radcliff, Lord Richard and Lady Mary Cavendish, Mrs. Fraser, and Mrs. Norris, Lord Hall, Mrs. Smyth, Baroness d'Orgeval, Miss E. Keane, and Mrs. Adair.

Now is the Time to Till.

THE Department of Agriculture have caused us to emphasise in our advertisements the importance of more tillage in Ireland. More tillage means more food, and everyone, from the farmer with many acres at his disposal, to the town resident, whose opportunity is limited to a grass plot, is urged to till it, for the purpose of growing food.

DUBLIN AND SOUTH-EASTERN RAILWAY.

POSITION OF THE COMPANY.

The annual meeting of the proprietors of the Dublin and South-Eastern Railway was held yesterday at the offices, Westland row, Dublin, for the purpose of receiving the directors' report and statements of accounts for the year ending December 31st, 1917, and to elect a director.

Mr. Frederick Brooks, D.L., Chairman of the Board of Directors, occupied the chair. Other shareholders present—Sir Thomas Esmonde, M.P.; Mr. H. G. Bewley, Mr. W. Pim, Mr. R. J. Booth, and Mr. J. MacVeagh, M.P. Mr. R. D. Griffith, secretary, was also present.

The Chairman, moving the adoption of the report and statement of accounts (which had already been published), referred to the death of Mr. James Pim and Captain Tighe, who had been directors for over twenty years. Mr. J. MacVeagh, M.P., who had rendered the company considerable assistance, was co-opted for one of the vacancies on the board. They regretted the retirement of Mr. Frank W. Pim from the chair, after a service of twenty years as chairman. One of the most pressing matters to be settled at once was Lloyd's bonds. These bonds had been issued to cover the expense of the diversion railways, etc., including the tunnel, and he was sure all of them who had travelled over those portions of the line would agree with him that a great improvement has resulted by reason of this expenditure. (Hear, hear.) The line would probably have been unworkable for this time but for those diversions, owing to the raised encroachments of the sea. These bonds, varying in amounts, and issued for different periods, matured from time to time, and were either renewed by the holders or taken up by others. During the last year, however, as certain of the bonds fell due, the holders wished for payment, and the directors made an application to the Chief Secretary for financial assistance. The Government, on the facts being laid before them, agreed to advance the amount required, and with the funds thus provided the holders of the bonds were paid off. Thus the Treasury was already the creditor of the company in lieu of the bonds already matured, and would be so for the sum lent for same as they matured later on. This matter having been satisfactorily settled, they had next to take up the question of diverting the line inland from Greystones to Wicklow. A free grant of £10,000 was at once made to assist the company in laying the line where it was for the present. Mr. Moore, their Chief Engineer at once started work on the foreshore in accordance with the advice given by Sir Maurice Fitzmaurice, and since the rest of July we to the 4th of this month 6,541 tons of large stones and 4,754 tons of concrete blocks have been placed on the portion of the line most likely to be cut, should any heavy gale occur. The Chief Secretary inspected the line from Greystones to Wicklow on the 29th August. It was acknowledged on all sides that the diversion of the line inland from Greystones to Wicklow was an absolute necessity. (Hear, hear.) The directors confidently trusted that adequate assistance would be rendered by the Treasury, without which they did not see how the proposed diversion could be carried out. The directors were under great obligations to Sir Maurice Fitzmaurice, and also those of Irishmen would stand together in the regeneration of their country.

Mr. C. J. Reddy said he thought that the directors on the Board of Trade should be paid by the Government, as the Government had taken control of the railways. He objected to the system of co-option of directors, and to the use of proxies by directors in their own interest. He also thought that it was not time to promote Parliamentary bills, especially when there was a proposal being in existence to deal with them in a Parliament in Dublin. He wanted to know the attendance of the directors at meetings, and their individual remuneration.

Mr. R. J. Kelly, K.C., said he thought it would only be fair that the Government should make them to pay the dividend of 1913.

Mr. W. Ireland deprecated the use of remarks about co-option. The Chairman had not been co-opted, but appointed, and the appointment was a good one. (Hear, hear.) He noticed that an increased rent had been made in the working of the line, and that better wages were being paid with the trains. He believed that the diversion of the line would make it a most valuable one, and the directors had done all they could to get the most of the Government offered them.

Mr. Bentry White and Mr. W. A. Higginbotham having spoken,

The Chairman, replying to the questioners, said there was nothing under the control which authorised them to pay a dividend, except out of the Government guarantee of 4 per cent. The Government merely guaranteed the receipts for 1915. In 1913 they had just commenced the diversion of the line, and the interest on the Lloyd's bonds was then £9,000 in the year. They carried forward in 1913, £10,000. In 1917 they had finished their diversions, and the interest to the Government, and on Lloyd's bonds, was now £9,900, instead of £9,000. They carried forward £10,000 in 1916, they had a carry over of £4,000; in 1917 they had not much chance of paying a dividend. His own idea was that no property was worth having unless it was kept in proper order. (Hear, hear.) When they paid a dividend on the ordinary shares it would be continual, and not spasmodic, nor he hoped that would soon commence. (Hear, hear.)

The motion for the adoption of the report was passed unanimously.

On the motion of the Chairman, seconded by Mr. Booth, the Preference dividends required by the laws of the company were ordered to be paid.

Mr. Powell expressed that the checkers who detected the fraudulent travellers should be rewarded.

The Chairman said that would be considered.

THE CONVENTION.

On the motion of the Chairman, seconded by Mr. Pim, it was resolved that the Board of Directors should assist, if at all, instead of eight, the two who had lapsed by death were Mr. Lawrence Adams and Capt. Tighe. The latter was also a director of the Dublin and South-Eastern Railway, and the Convalescent Home, Rathfarnham, 16 miles.

The Committee gratefully acknowledge the following donations received in aid of Miss Alexander, £1; J. Anthony (collection in support of Convalescent Home), £1 10s; Mrs. Bewley, £1; Mrs. Bewley, £1; Mrs. Bewley, £1; R. H. Charrock, £1; Mrs. Charrock, £1; Mrs. Charrock, £1; Mrs

The Authorised Price of NESTLÉ'S MILK

has always been low and for many months now it has been 1/1½ per tin.

The Lowest Price in the Market.

Since the war and so that the British Army in France should have all our Swiss Milk, we have largely developed our English production, which is now seven-eighths of the whole in Great Britain. We had arranged to supplement this by a record output for 1918 in the milk-producing countries best able to supply our needs for

THE RICHEST IN CREAM

long before we ever heard of any proposed Government Control—which the public rightly demanded because of the much higher prices of unknown brands.

Therefore, in spite of the increased cost of production in England owing to the higher prices rightly paid, for milk to the English farmers, and the heavy freight costs to bring to these Islands what Great Britain cannot produce, we shall do our level best to assist the Food Controller to supply **THE HIGHEST POSSIBLE QUALITY** at **THE LOWEST POSSIBLE PRICE.**

There was a light fall of snow in the Antrim district on Wednesday night. All traces of it had, however, disappeared when the coursing meeting opened at Massereene Park yesterday morning, but a piercingly cold wind blew from the north-east, and made things rather unpleasant for the small company present. The ground was much better than on the opening day, and the concluding stages were full of interest. The Northern Coursing Royal Regent and Mr. Bennett, driving in the name of Mr. W. Bennett, divided the Massereene Stakes, and the Ballymac Stakes fell to Mr. Hall's Lady Charming, who on an inside bid and cleverly contested Herbertina in the decider from the Cork greyhound was a couple of lengths the fleeter.

Herbertina had previously vanquished the famous English dog, General Peace II., who is by the same sire as Mr. Bennett's dog, and is a very speedy performer, but nothing of the same class. Sunset XII. was a popular winner of the Antrim Stakes.

BILLIARDS.

BELFAST AND DISTRICT BILLIARD LEAGUE.

Results of matches played on Wednesday evening:—Ulster Club (Belfast) v. Ulster Club (Lisburn), 4,304; Ulster Club (Belfast) beat Ulster Club (Lisburn), 4,304—Lisburn Club v. Ulster Club (Belfast), 4,304; Ulster Club (Belfast) beat Lisburn Club, 4,304.

There was a good attendance at the Ulster Club (Belfast) on Wednesday evening when the above matches were played. The Belfast team was strong throughout, and the Lisburn players were unable to cope with their opponents. The Belfast Club now leads the League with 8 points, and will probably be the winners. The Lisburn Club has not yet played a match, and will have to do so before the League is finished.
